Summary

If you need a dependable and result-driven Junior Software Developer, I'm the guy you're looking for! Anywhere from creating webpages, querying databases, and building applications from scratch, I've got you covered! I have the ability to analyze, learn, and implement complex rules and regulations while making prompt decisions.

Skills

- Problem Solving
- C#, SQL, CSS, HTML, JS
- Team Oriented

- Communication
- Ethically Grounded
- Experienced Leader

Professional Experience

FEBRUARY 2021 – MAY 2021

Full Stack Software Developer (Student) / devCodeCamp, Milwaukee, WI

Completed 5 major projects so far; two websites (including my own portfolio website https://jacob-s-werner.github.io/), two games, and one program that simulates a vending machine. The languages I've learned so far are C#, SQL, CSS, and HTML.

JANUARY 2020 – NOVEMBER 2020

Line Service Technician / Signature Flight Support, Cedar Rapids, IA

In charge of providing on the ground support for private jets and general aviation, ensuring outstanding customer service and fast service. A variety of services including, marshalling, fueling, hangar storage, towing, and coordination for taxiing aircraft on the ramp. Provides commercial fuel service for multiple airlines.

JANUARY 2019 – DECEMBER 2019

Inventory Specialist-Truck Lead / Best Buy, Coralville, IA

Leads a team of 5 people within tight deadlines to complete inventory receiving and stocking. Handles all outbound and inbound shipping on a daily basis while preserving an accurate receipt of goods. Assists employees and customers in locating and purchasing various products.

JULY 2015 – APRIL 2018

Fire Team Leader / United States Air Force, Moody AFB, GA

Lead three ground combat specialists, ensuring each assigned squad was proficient with skills and maintained equipment. Conducted written annual evaluations of Airmen for career and personal growth. Instructed team members on weapon systems and technology for security and base defense.

MAY 2012 – JULY 2015

Fire Team Member / United States Air Force, Moody AFB, GA

First responder to detect and halt security threats; trained for crisis/emergency situations. Conduct interviews and write reports for various incidents including; damaged vehicles, lost/stolen resources, surveillance and security. Maintain qualifications on weapon systems and ready to deploy overseas within 72 hours.

Education

MAY 2021

Full Stack Software Developer/ devCodeCamp, Milwaukee, WI

BA in Ethics and Public Policy / University of Iowa, Iowa City, IA

FEBRUARY 2018

AS Criminal Justice / Community College of the Air Force, Montgomery, AL
